To: Warden William J. Fraser

From: Sebastian Trapani, Assistant Superintendent 

Subject: Contracted Services

Date: January 6, 2008

As per your request, I contacted ten (10) of the states seventeen (17) Detention Centers on January 5, 2009. At this time nine (9) Administrative/Executive personnel were reached from the following counties: Atlantic, Bergen, Camden, Cumberland, Gloucester, Hudson, Mercer, and Ocean. I inquired about the current census, and any willingness to open dialogue in regard to utilizing bed space from Monmouth County. This resulted in negative responses. None of the administrators contacted were in need of contract services with us. With the exception of Atlantic County, all other aforementioned counties were currently operating below capacity and not in need of contract services.

Previously, Superintendent Linington and myself had contacted several of the facilities regarding same only to be met with negative responses. Gloucester County had showed some interest in 2006, but felt the distance and cost was too much. Mr. Linington also looked into juvenile ICE, but again no negotiations could be realized. At this time, there does not appear to be a revenue source available.
